**BARIANO (BERGAMO) giardino scuola primaria**

This ceremony had been scheduled for the year 2020, but given the onset of the COVID 19 pandemic it was postponed. The raging pandemic forced the plant to be planted with a reduced ceremony in the presence of very few people who represented the creators of the project. The mayor of the town in the lower Bergamo area Andrea Rota with a speech that reminded everyone that as soon as possible there will be a big party around this tree with the presence of children, thanked all the volunteers who allowed the arrival of this symbol of peace . Many of the works proposed by the various classes that were hung around the tree. The appointment is for 2022 on the birthday of the kaki hoping that this pandemic has resolved itself.

**ALBAGNANO (VERBANIA) Kunpen Lama Gangchen**

This ceremony organized by our partner Flavia Milesi who had already organized ceremonies in the Bergamo area, proposed to the Albagnano Tibetan Buddhist center to plant a tree to remember Lama Gangchen Tulku Rinpoche, real name Thinley Yarpel Lama Shresta (7.7.1941- 18.4.2020) who was one of the most important Buddhist masters belonging to the latest generation of lamas of old Tibet.

"Inner peace is the most solid foundation for peace in the world." This is one of his most important teachings.

Recognized and renowned as a spiritual guide and life master, he is, and will remain, a point of reference for tens of thousands of people, not only Buddhists, all over the world.

The ceremony carried out with great simplicity, but with a great spirit of peace was led by Lama Michel Rinpoche who since 2018 is the architect - responsible for the design and construction of the Temple of Heaven on Earth at the Albagnano Healing Meditation Center in Verbania .

**BERGAMO - PARCO DELLA MEMORIA (parco della Trucca)**

The board of KAKI TREE EUROPE wanted to give a sign for the memory of the thousands of people who died in the Bergamo area due to COVID 19. In the Parco della Memoria right in front of the PAPA GIOVANNI XXIII hospital which was the most critical center of the spread of the pandemic in Italy, the municipality of Bergamo with which there is a very close relationship through the councilor Marzia Marchesi, this park was inaugurated in which various plants have been planted, each one to remember one by one the people who died from this virus.

We brought a second generation Kaki tree from Nagasaki which was planted in the presence of both the councilor Marzia Marchesi and the councilor from Brescia Miriam Cominelli who is always present at our ceremonies. The presence of the councilor from Brescia is also dictated by the fact that many people have died in Brescia as a result of the COVID 19 virus.

In addition to the KAKI TREE EUROPE board, representatives of some organizations that work with us in the Bergamo area for the KAKI TREE were present at the ceremony, including: the Italian-Japanese cultural group KOKORO and Flavia Milesi. The very rainy morning did not prevent the ceremony which was very important and touching for the memory of these people who died tragically in 2020 and 2021.
